

1. On September 25th, the Income Tax System Will be Put On Trial.

By We The People.

On July 1st, Bob Schulz, a defender of the Constitution and Chairman of We The People Foundation for Constitutional Education, began a hunger fast to force the government to publicly answer specific legal questions that **directly challenge the legal jurisdiction of the IRS and the unlawful enforcement of U.S. income tax laws against citizens of the fifty states.**

On July 20th Dan Bryant, U.S. Assistant Attorney General and Rep. Roscoe Bartlett (Maryland) signed a written agreement committing tax and legal experts from the Department of Justice to answer these charges in a public and recorded hearing. IRS Commissioner Charles Rossotti also committed to send IRS representatives to the September hearing on Capitol Hill.

2. Specific Legal Charges :

- There is **NO law that requires** most Americans to file a return, pay income taxes or have any taxes withheld.
- The 16th (Income Tax) Amendment was **ratified by FRAUD.**
- If you file, **you have WAIVED** your 5th Amendment (Miranda) rights.

Toto Needs Help in Pulling Back the Curtain.

3. Project Toto

Project Toto is a public education campaign initiated by the Foundation to develop a critical mass of people demanding official, public responses to these well documented legal questions.

The foundation published several full page ads in USA Today costing hundreds of thousands of dollars. Since this spring, the dominant media (and USA Today) have virtually “blacked out” all coverage of our petition for a redress of these grievances.

On the 25th, Toto pulls the curtain on the “great and powerful” wizard of taxation.

The People will fear no more.

Our organization needs help in financing the significant costs of bringing this historic moment in U.S. history to the People.

We have assembled a legal research team anchored by compensated attorneys, we have secured a satellite uplink for a free 2-day worldwide radio broadcast and we are professionally producing a live, gavel-to-gavel internet video webcast. We are currently incurring significant logistical costs for air travel, hotels, conference calls, computer hardware and software, telecommunications costs, etc.

4. Please Help.

Invest in this historic stand for freedom. Donations to Project TOTO are tax deductible and are protected by a bonded CPA firm.
