**ATOMIC ENERGY COMMISSION**

[Docket No. 50-89]

**GENERAL DYNAMICS CORP.**

**NOTICE OF ISSUANCE OF FACILITY LICENSE AMENDMENT**

Please take notice that the Atomic Energy Commission has issued the following Amendment (No. 3) to License R-38 authorizing General Dynamics Corporation as requested in its applications for license amendments dated August 7, 1958 and October 16, 1958, (1) to conduct the experiments described as "(a) Measurement of Effect of Poison on Control Rod Characteristics" and "(b) Single Control Rod Reactor Operation" and (2) to replace some or all of the graphite dummy elements with lead elements and water to demonstrate feasibility of these two reflector materials, in its TRIGA reactor located at Torrey Pines Mesa, California. The Commission has found that operation of the facility in accordance with the terms and conditions of the license as amended will not present undue hazard to the health and safety of the public and will not be inimical to the common defense and security.

The Commission has found that prior public notice of proposed issuance of this amendment is not necessary in the public interest since the conduct of the proposed experiments does not present any substantial changes in the hazards to the health and safety of the public from those presented by the previously approved operation of the facility.

In accordance with the Commission's rules of practice (10 CFR Part 2) the Commission will direct the holding of a formal hearing on the matter of the issuance of the license amendment upon receipt of a request therefor from the licensee or an intervener within thirty days after the issuance of the license amendment. For further details see (1) the application for license amendment submitted by General Dynamics Corporation, and (2) a hazards analysis of the proposed experiments prepared by the Division of Licensing and Regulation, both on file at the Commission's Public Document Room, 1717 H Street NW., Washington, D. C. A copy of item (2) above may be obtained at the Commission's Public Document Room or upon request addressed to the Atomic Energy Commission, Washington 25, D. C., Attention: Director, Division of Licensing and Regulation.

Dated at Germantown, Md., this 3d day of December 1958.

For the Atomic Energy Commission.
