

## **WE THE PEOPLE'S STATEMENT OF BELIEFS:**

**We The People have produced the following Statement of Beliefs as a platform for recommended future actions to solve the Nation's problems, including BAILOUTS, CORPORATE PERSONHOOD, WAR, UNSOUND MONEY, PUBLIC DEBT and others.**

**We ask that these Beliefs now be considered by ALL People.  
Ponder these and make known your approval:**

- All People have Natural Rights -- Simply Because They Are Alive;
- We the People have Instituted Government to Secure our Rights;
- According to our Governing Documents, Sovereignty rests with the People - Here in America, the People have the Ultimate Power;
- The Constitution & Declaration of Independence are inextricably intertwined;
- Every Principle, Prohibition, Restriction and Mandate of our Governing Documents represents a Guaranteed, Individual Right;
- The People are the Source of All Political Power - no one gets into office unless WE put them there;
- All Elected Officials are limited by our written Constitutions - If Not Authorized in writing, such acts are UNLAWFUL;
- The Constitution is not a Menu;
- The Constitution cannot Defend Itself;
- Individuals and Small Groups cannot prevail in attempts to hold government accountable to their State and Federal Constitutions;
- A Critical Mass is needed, i.e., 3-5% of population;
- Very few in and out of public office can recognize when government is obeying or violating the Constitution;
- The way our system of governance is working is in sharp contrast to the way it is designed to work;
- We don't change the Constitution by ignoring it; there are provisions within it to make changes;
- All that is happening is our fault; the People have allowed it to happen;
- The People have always had the ultimate power in America and have always been the final arbiters of constitutionality;
- Most of what is causing our National distress NOW can be traced back to violations of the Constitution.

**This Statement of Beliefs is now posted
