Most Americans don't know the entity that controls our national monetary policy and that has transformed our sound money into a bottomless, "black hole" of unconstitutional paper debt is a privately owned cartel of banks better known as the "Federal Reserve System." In truth, it's no more "federal" than Federal Express. Some of the Fed's owners aren't even American.

Most Citizens don't know that the Fed creates money out of thin air then lends it back to our government - *with interest* - while incredibly, also controlling the interest rates, thereby controlling the value of the U.S. dollar, the national debt **and** the prices we pay for everything. The Fed IS the inflation!

Still fewer of our People know our Constitution explicitly prohibits the Government from handing over these fundamental powers to anyone!

The economy may soon collapse. There's no mystery why: The Fed is THE cause.

The Federal Reserve is a Constitutional crime.
Thankfully, the Founders left us a profound
Constitutional weapon to fight back. It's time to use it.
