

of the reconsideration step in the administrative review process; and the use of an adjudication officer who will conduct prehearing procedures and, if appropriate, will issue a decision wholly favorable to the claimant.

On April 4, 1997, we published in the **Federal Register** (62 FR 16209) a notice that testing of this model would take place at the SSA's Western Program Service Center in Richmond, California. That testing was to begin on or about April 28, 1997, and case selection was to continue for approximately one year with cases processed for an additional six months. We stated that additional federal sites might be added later.

We are now announcing that testing also will take place at the following site: Social Security Administration, Office of Disability and International Operations, 1500 Woodlawn Drive, Baltimore, MD 21241. The test in Baltimore will involve claims by individuals who wish to file by telephone. These cases will be referred to the Baltimore processing center by teleservice centers that service residents of Kentucky. We will begin selecting cases for processing in this test on or about August 11, 1997, will continue to select cases for approximately one year, and may continue to have cases processed for an additional six months. In addition, we may choose to extend the test to obtain additional data. We will publish another notice in the **Federal Register** if we extend the duration of the test. We may add other Federal sites later. If we add other Federal sites, we will publish another notice in the **Federal Register** identifying the added sites.

This test will combine the four process modifications mentioned above, plus two features designed to maximize the resources of a Federal processing center: having a two-person team complete the application interview by telephone; and effectuating, in the processing center, the payment of benefits to claimants who are found disabled. The adjudication officers under this model will process cases as they are doing in those States in which that feature is being tested separately. (Refer to 20 CFR §§ 404.943 and 416.1443.) The single decisionmaker will process cases as single decisionmakers are doing in those States in which that feature is being tested separately (see 20 CFR §§ 404.906(b)(2) and 416.1406(b)(2)), except that the single decisionmaker in this model also will assist in the claims interview and will offer a predecisional interview to a claimant for whom a fully favorable determination cannot be made based on the initial information obtained. If a

claimant is dissatisfied with the initial determination, he or she may appeal directly to an administrative law judge. The adjudication officer will be the claimant's primary point of contact before a hearing is held with an administrative law judge. Claims authorizers will participate in the telephone claims interview and will effectuate payment to claimants who are found disabled.

Dated: July 28, 1997.

Glenna Donnelly,

Assistant Deputy Commissioner for Programs and Policy.
