TITLE 7—AGRICULTURE

Chapter VIII—Production and Marketing Administration (Sugar Branch), Department of Agriculture

Subchapter B—Sugar Requirements and Quotas
[Sugar Reg. 811, Rev. 2]

PART 811—SUGAR REQUIREMENTS, CONTINENTAL UNITED STATES REQUIREMENTS FOR 1952

Basis and purpose. The revised determination set forth below is made pursuant to section 201 of the Sugar Act of 1948. The act requires that the Secretary shall revise the determination of sugar requirements at such times during the calendar year as may be necessary. It now appears that an increase in the estimate of requirements for the calendar year 1952 is necessary. The purpose of this revision is to make such determination conform to the requirements indicated on the basis of the factors specified in section 201 of the act.

Immediate availability of a part of the additional supply of sugar provided by this determination of sugar requirements is necessary to insure orderly marketing and to maintain a continuous and stable supply of sugar at prices that are not excessive to consumers. Therefore, in order effectively to carry out the purposes of the Sugar Act, it is necessary that the revision of the determination be made effective as soon as possible. Accordingly, it is hereby determined and found that compliance with the notice, procedure and effective date requirements of the Administrative Procedure Act (60 Stat. 237; 5 U. S. C. 1001) is impracticable and contrary to the public interest, and the revision of the determination made herein shall be effective on the date of its publication in the FEDERAL REGISTER.

By virtue of the authority vested in the Secretary of Agriculture by the Sugar Act of 1948 (61 Stat. 922, 7 U. S. C. Sup. 1100) and the Administrative Procedure Act (60 Stat. 237, 5 U. S. C. 1001) Sugar Regulation 811, the determination of the amount of sugar needed to meet the requirements of consumers in the continental United States for 1952, as revised (16 F. R. 12929; 17 F. R. 9615), is hereby further revised to read as follows:

§ 911.4 *Sugar requirements, 1952.* The amount of sugar needed to meet the requirements of consumers in the continental United States for the calendar year 1952 is hereby determined to be 7,900,000 short tons, raw value.

Statement of bases and considerations. On December 20, 1951, the supply of sugar required from quota sources in 1952 was determined to be 7,700,000 short tons, raw value. It was indicated at that time that distribution in the 12 months ended October 31, 1951, was about 7,850,000 short tons, raw value, that about 150,000 tons had been used in the 12 months from "invisible" inventories and that further depletion in such inventories probably would occur by December 31, 1951. Final distribution data for 1951 show a total of about 7,737,000 tons and "invisible" inventory statistics indicate the use of an additional quantity of approximately 250,000 tons. Thus, total use in 1951 appears to have been about 8,000,000 short tons. These quantities were utilized at annual average prices of 6.06 cents per pound for raw sugar and 8.38 cents, wholesale, New York basis, for refined sugar. Prices of 5.75 cents for raw sugar and 8.25 cents for refined prevailed at the time that the 7,700,000 ton determination was made. In that determination it was stated that these prices were too low to maintain the domestic sugar industry as required by the Sugar Act of 1948 and the quantity established reflected a reduction of 400,000 tons as a price stimulus.

On October 21, 1952, Revision 1 to Sugar Regulation 811 increased sugar requirements to 7,800,000 short tons, raw value. At that time it was pointed out that sugar distribution in 1952 to September 1 exceeded that for the corresponding period of 1951 by 240,000 tons but that it was necessary to continue a negative allowance for price effect.

Beginning in early June, the price of raw sugar, duty paid, New York, fluctuated between 6.37 and 6.62 cents per pound and the generally quoted basic price for refined sugar was 8.80 cents. Average prices for the first ten months of 1952 were 6.27 cents for raw sugar and 8.59 cents for refined sugar. In light of the criteria set forth in section 201 of the Sugar Act of 1948 and trends of other prices, refined sugar prices have not at-
