### PORTLAND CEMENT FROM DENMARK

#### Determination of No Sales at Less Than Fair Value

JANUARY 13, 1961.

A complaint was received that portland cement from Denmark was being sold in the United States at less than fair value within the meaning of the Anti-dumping Act of 1921.

I hereby determine that portland cement from Denmark is not being, nor likely to be, sold at less than fair value within the meaning of section 201(a) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)).

**Statement of reasons.** The available information indicated that a comparison between purchase price and adjusted home market price was appropriate for the purpose of a fair value comparison. It was found that the purchase price was lower than the adjusted home market price as to one of the two importations received this year, both imported in the first quarter of 1960.

The purchase price was computed on the basis of the C&F price less included ocean freight, stowage, and cost of spare bags included in the shipments. The adjusted home market price was computed on the basis of the ex-factory price less a quantity discount and cash discount, plus an adjustment for commission included in the purchase price, and for packing cost differential.

The total quantity of the importation which appeared to show a dumping margin amounted to about 0.01 percent of domestic production of portland cement. This was received and appraised prior to receipt of the complaint. The quantity involved was considered to be not more than insignificant, and there have been no importations since that time.

This determination and the statement of reasons therefor are published pursuant to section 201(c) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(c)).
